MUSEUMS OF IMPACT – ONLINE TRAINING 2022

MOI! – MUSEUMS OF IMPACT

The European cooperation project MOI aims to develop a European self-evaluation framework for museums, with impact at its core, for the benefit of both museums and European citizens.

The framework will help museums to develop their capacity to meet the demands of a changing, more diverse, increasingly digital and ageing society, by supporting them in evaluating and actively refocusing their work in line with their own strengths and strategies. Developing the framework is a joint effort of a partnership of 11 European museums, museum developers and public bodies, amongst them NEMO, led by the Finnish Heritage Agency.

NEMO

The Network of European Museum Organisations (NEMO) is an independent network of national museum organisations, museum networks, individual museums and museum-related businesses representing the museum community of the member states of the Council of Europe. NEMO ensures museums are an integral part of European life by promoting their work and value to policy makers and by providing museums with information, networking and opportunities for co-operation.

The selection process (of up to 16 members) will be carried out by NEMO's executive board and the hosting organisation.
