Museums & Makers inspiring each other

PROJECT SLAM, NEMO, MUSEUMS OUT OF THE BOX! THE CROSSTOVER IMPACT OF MUSEUMS
15-18 NOVEMBER 2018, VALETTA, MALTA.
JENNY SIUNG, HEAD OF EDUCATION CHESTER BEATTY LIBRARY, IRELAND
The Making Museum project will build on the success of the Creative Museum project.

It will extend and further develop the training opportunities re: Museomix and Maker-in-Residence.

The Making Museum project will provide a sustainable platform for the dissemination of the Toolkits through a range of activities (workshops, conferences, etc.).

The Making Museum will offer the opportunity to share the lessons learnt and skills acquired.
**TO COLLECT & ANALYSE**
Identify, compare, analyse creative practices in Europe; to produce recommendations for museum professionnels

**TO DISCOVER & LEARN**
To explore ways to bridge the gap between participatory web culture and cultural institutions through peer-to-peer training programmes

**TO EXPERIMENT**
A maker-in-residence programme to connect makers and digital talents with museums

**TO EVALUATE & SHARE**
Be inspired by start-up approaches based on iteration and align with maker culture to share ideas and knowledge as freely as possible
Impact of Creative Museum

- Brought the museum to another venue
- Open dialogue with Science Gallery Dublin
- Festival of Curiosity partnership in July 2015-2018 Contact with TOG Hackerspace Dublin
- Other local Makers in community
- Museum Next fringe event April 2016 & other related events
