- Instructions for application package and eForm, application package
Important reference documents and tools on the dedicated webpage

Here you can find relevant information concerning the funding opportunities and application procedures within the Erasmus+ programme.
Organisations wishing to apply for Sector Skills Alliances are invited to submit applications online by **28 February 2018, 12:00 noon (midday, Brussels time)** to the Education, Audiovisual and Culture Executive Agency in Brussels.

The instructions for the Application Package are intended to help applicants for Sector Skills Alliances to find information they need to complete their applications.

**Before starting your application:**

1. **Read carefully** the relevant section of the Erasmus+ Programme Guide, as well as the Instructions for the Application Package.
2. Applicants must have a EULogin (European Commission Authentication Service) account. If you already have an EULogin account, you may use it, otherwise, click here to create the EULogin account. When you have created your EULogin account, return to this page.

**You are now ready to start the application process:**

1. The applicant and all partner and affiliated organisations must be registered in the Participant Portal. Organisations that register in the Portal receive a Participant Identification Code (PIC) that will be requested in the application form.
2. Given that each applicant organisation should use only one PIC code, please first check with your legal representative’s office whether such a PIC number has already been created for your organisation. If this is the case, you may use this PIC code to create your electronic application form.
Co-financing mechanism

The contribution to the costs in Sector Skill Alliances is given through a simplified form of grants and takes form of the system “unit costs”.

Grant contribution = "days of staff related to project implementation * "pre – established amounts"

The resulting EU grant is the EU contribution to cover all activities/costs of the project, whatever their nature:

- Activity directly linked: project management, project meetings, intellectual outputs, IT tools, analyses, studies, dissemination, participation in events, conferences, travel, etc.
- Nature: staff; travel and subsistence; subcontracting; equipment; direct and indirect costs
