#SolidarityWithUkraine

Berlin, 25.02.2022: The Network of European Museum Organisations expresses its solidarity with all cultural organisations and individuals in Ukraine.
We are concerned for the wellbeing of our museum colleagues, peers and friends in the country.

The network is deeply distressed by the threat and ultimate consequences befallen civilians in Ukraine and urges European institutions to look for ways of diplomatic de-escalation and restoration of peace in Europe.

In these moments may we remain committed in pursuing a Europe that upholds peace, prosperity, human rights, and respect. Let our shared cultural heritage allow us to learn from our past and act in fellowship across Europe.
